

LOOP THE LOOP in a Glider!!!

You must be joking! NO?

No, we're not joking. See the world from a different point of view,

UPSIDEDOWN !

WANTED ~~to~~ volunteers to sit in a plane with no engine, otherwise called a glider, be towed to 2,000 feet by a plane *with* an engine and to perform a 'loop the loop' as you ~~plummet~~ glide safely back to earth!

Dare you 'do' the LOOP?

Have you got the bottle to do it?

Do you know someone brave enough to do it?

The members of the London Gliding Club at Dunstable Downs are willing to take each volunteer who raises £250, or more, sponsorship for about a 15 minute flight in their glider and to perform a '*loop the loop*' before landing. The flights will take place on September 21st or the 28th if the weather is no good. BUT, it is possible to arrange a 'loop' on any suitable day.

All sponsorship money raised will go to Wolverton and Stony Stratford Rotary's on-going projects to improve health and education facilities for the children of rural KwaZulu Natal in South Africa..

Go on, put yourself forward for sponsorship. Get the members of your club or organisation to think of their sponsorship as a donation to the health and welfare of Zulu children and how it will scare the living daylights out of you! Just £250 to raise. Of course you can do it.

Or maybe you think of someone who needs a challenge?
